

OFFER

We are currently looking for an **Evaluator** to support our **Agriculture, Rural Development and Environment Department** to start in **January 2021**.

ADE is one of Europe's leading consultancies, specialised in the evaluation of public policies. We are based in Louvain-la-Neuve, near Brussels, Belgium. We support decision-makers in formulating, monitoring, implementing, and **evaluating public policies and strategies**.

ADE's areas of expertise include notably:

- Agriculture, Rural Development and Environment
- Strategic and Impact Evaluations
- Macro-Economic Reforms
- Development Finance and Private Sector Development
- Conflict Resolution, Security, and Fragility

Our Agriculture, Rural development and Environment Department is specialised in evaluations in these fields, notably within the context of the **Common Agricultural Policy**, but also in third countries. We work for major clients such as the **European Union, EU Member States, EU MS' aid agencies** (Enabel, AFD, ..),

the **African Development Bank**, etc.

Examples of recent studies include:

- Evaluation of AfDB's support to Renewable Energy 2012- 2021
- Evaluation of the ENRD and NRN's contribution to the Rural Development Policy (2014-2020) EU 28 for DG Agri (EC)
- Evaluation of the impact of LEADER on balanced territorial development at EU 28 for DG Agri (EC)
- Ex-ante evaluation for the 2021-2027 CAP National Strategic Plan Luxemburg
- Support for the design and implementation of the post-2020 CAP Strategic Plan in Wallonia
- Framework contract with the Belgian Co-operation on evaluation of their programmes and projects in the sectors of agriculture, inclusive growth, infrastructure, energy (2018-2022)
- Framework contract with DG Agri for the evaluation studies of CAP measures contributing to the general objectives of balanced territorial development (2017-2023)
- Programme and strategic evaluation of the interventions of the African Development Bank in Benin, 2012-2021

Your work:

- Designing evaluation approaches and tools
- Conducting interviews and data collection
- Conducting quantitative & qualitative research and analysis
- Drafting reports and presenting findings in client meetings
- Managing teams and projects
- Participating to tender processes and ADE's wider internal and external activities

Your skills and experience:

- **5 to 10 years of professional experience**
- **Master or PhD**, typically in highly analytical fields (e.g., agronomy or economics)
- **Outstanding analytical skills**, for both in-depth research and strategic high-level thinking
- **Fully fluent in English and French**; other languages are an asset
- A strong interest in evaluation of public policies
- Ability to work under tight deadlines
- Strong organizational and planning skills
- Strong writing and presentation skills
- Leadership and interpersonal skills, ability to work in teams

Your opportunities:

- Conducting complex, strategic evaluations targeting senior decision-makers
- Gaining experience across a range of different clients, countries, and organisations
- Working in line with ADE's 4 main values: Excellence - Ethics - Entrepreneurial spirit - Team spirit
- Developing your skills as a professional consultant
- Joining an international team of highly qualified colleagues

- Benefiting from a full salary package, with benefits such as a company car if desired

HOW TO APPLY? Only via emails – applications on the job post platforms will not be considered.

Interested candidates are welcome to send their application (CV and 1-page cover letter) **in English** to laurence.quintens@ade.eu the **SOONER the BETTER** and before 31 January 2022. **We may process applications after the 5th January.** Please indicate in your cover letter a **possible starting date**, as well as **the channel through which you learned about this opportunity.**

Only short-listed candidates will be contacted. Remote working, at least in part, may be considered in the context of the COVID-19 pandemic (to be assessed in due course).
