The proposed price includes French VAT (20%). It does not include Swedish excise duty or any transport.

The sale is ex work (EXW) our wholesaler in Ollioules (Var - France).

All wines are only sold for your and your family's private consumption - Commercial use is forbidden

Depending on availability, the indicated vintage may be substituted by another. Although our supplier has validated that there are enough bottles to meet the demand, if one of the wines is not available anymore, an equivalent bottle will be selected by Sacrévin.

How to order ?

If you are not already a member of Sacrévin, you would need to get your membership before being able to order. This is easiest done through the registration form available in English/French on the website : www.sacrevin.eu / [Become a member](#) / [Join us](#) !

Go then to www.sacrevin.eu and click on the page "[Wine shop for members](#)" to order. You need to login in before since the sale is limited to existing members.

If you do not want to order through the website, you can send it to sacrevin@gmail.com where it would be handled manually. Paiement would be done by credit card using a paiement link from SumUP. Note that a fixed 10€ charge is added due to higher transaction fees and extra work needed.

Do you want more wines ?

For demanding members we have gathered a 600 references list with half-bottles, regular, magnums and double magnums of various French regions

The list can be accessed by using [this link](#) or the QR code

If you are interested in some references, contact sacrevin@gmail.com for price and availability check

Can I get it delivered to Stockholm ?

As Sacrévin only sells wine ex work in France and never arranges transportation, it is up to you to commission any company of your choice to arrange the transportation to Sweden, please note that you would need to declare and pay Swedish excises duties to Skatteverket

Most members of Sacrévin use the privat import services of Vinologie, a Swedish company that offers the following services for a flat fee of 75 SEK per 75cl bottle including :

- Swedish excise duty (punktskatt), 19.62 SEK per 75 cl bottle
- The administrative procedures for declaration to Skatteverket
- Customs procedures and accompanying documents.
- Grouped transport from the PACA region in France to Stockholm
- Secondary transport to the collection points of your choice (free) or at your home (with a supplement of 250kr for Stockholm, price on demand for other cities)

Uppsala		Free
Stockholm - Alvik		Free
Stockholm - Odenplan		Free
Stockholm - Hammarby Sjöstad		Free
Tyresö Strand		Free
Home delivery (Stockholm and surrounding area)		250 kr

Collection points in Stockholm should be delivered during week 23, without any firm commitment due to administrative and logistical uncertainties.

For our members living outside the Stockholm region, it is recommended to contact Vinologie before ordering to discuss the best logistics solution for your location.
