

Juan Pablo Moreiras/FFI

Project Manager, South Sudan (x 2)

“In the past century FFI has consistently saved species from extinction and protected habitats from destruction. Their solutions have always been practical, efficient and sustainable in local circumstances.”

Sir David Attenborough,
FFI Vice-president

Fauna & Flora International

Fauna & Flora International (FFI) saves species from extinction and habitats from destruction, while improving the livelihoods of local people. Our guiding principles are to work with and alongside local partnerships, act as a catalyst for change, make conservation relevant, and base decisions on sound science. Founded in 1903, FFI is the world's longest established international conservation body; our conservation work, and impact, spans the globe.

Africa Programme

Working closely with local partners, FFI's Africa Programme currently supports operations in 13 countries in West, Central, East and Southern Africa, and is implementing a range of projects focused on both terrestrial and marine species and habitat conservation, biodiversity planning, protected area management, institutional development and capacity building, sustainable use and community-focused wildlife management initiatives.

To achieve its mission in Africa, FFI uses different approaches to work with and alongside local partners to focus on the sustainable use and management of natural resources as a means to effective conservation in the long-term. In all its projects in Africa, FFI seeks to:

- Build and support local partnerships with African conservation and community development organisations
- Strengthen institutions to bring sustainability and added value to projects
- Maintain long term presence and relationships
- Reconcile conservation goals with the needs of local people
- Incorporate sound science in decision-making

South Sudan Programme

FFI has worked in partnership with the Ministry of Wildlife Conservation and Tourism (MWCT) and communities in Western Equatoria since 2010 to lay the foundation for the improved management of three protected areas – Southern National Park (SNP) and Bire Kpatuos and Bangangai Game Reserves – as anchors for broader environmental management, development, and stabilisation goals. FFI has utilised decades of experience in conflict-afflicted countries to manage through South Sudan's often fraught political and security situation, which has enabled us to maintain an almost continuous presence on the ground with strong support from government and communities. FFI's long-term vision is to ensure that there is a network of functioning protected areas that safeguard crucial habitat and biodiversity for the benefit of the people of South Sudan and the region.

The Opportunity (2 vacancies)

FFI is seeking two experienced conservation professionals to fulfil the role of Project Manager, who will assume responsibility for managing implementation and development of one or more of FFI's field sites in South Sudan.

The successful candidates will have a strong proven track record in supporting protected area management, ideally with experience of co-management and development models working with community members, in Africa. They will be skilled in providing strategic advice and technical input to the design, development, implementation, evaluation and reporting for projects and will have excellent project, grant and financial management skills.

Strong people management skills are essential to the role to ensure a professional and motivated team that delivers effectively against project aims, objectives and timelines. The role also requires a skilled and credible communicator, who is confident in developing and managing relationships with partner organisations and relevant stakeholders, and able to write donor proposals and reports. Additionally, the ability to lead and operate in a conflict / post-conflict situation is essential.

The successful candidates will have a strong track record in project management, fundraising and capacity building, as well as a commitment to organisational, donor and legal compliance.

Job Description

Job Title: Project Manager, South Sudan

Reporting to: Landscape Manager, Western Equatoria, South Sudan

Line Manager of: Local team members supporting work at project site(s)

Key Relationships: South Sudan Programme Team (South Sudan)
Africa Programme Team (UK)
Finance Business Partner, East Africa (UK)
Cross-cutting staff (UK)
Uganda Programme Team (Uganda)

Key External Relationships: As appropriate, the Project Manager, South Sudan will represent FFI with national and local government agencies, communities and community-based organisations, international and national partner NGOs and for-profit entities, academic institutions and funders

Purpose:

- Working closely with the Landscape Manager, Western Equatoria (LM-WE), the Project Manager will support delivery of FFI's vision for Western Equatoria landscape by leading the coordination, implementation and monitoring and evaluation of FFI supported field activities in specific field sites. Achieving lasting impacts through excellent programme management including maintenance of stakeholder relationships and in full compliance with FFI and donor financial guidelines and funding agreements

Responsibilities:

Under the line-management of and in collaboration with the LM-WE and working with the relevant project teams, the Project Manager, South Sudan will have the following responsibilities.

Implementation and Operations

- Ensure effective and quality planning and implementation of activities to meet agreed project objectives; in line with existing management agreements and agreed best practice measures, and coordinating and accounting for resource availability, including FFI staff, partners and other stakeholders. Field activities include but are not limited to:
 - Developing and improving the protected area management of target sites
 - Technical input into the coordination of law enforcement and biomonitoring patrols and research, and, as required, leading these activities in the field
 - Overseeing development and maintenance of infrastructure and assets (ranger posts, outposts, roads, bridges, wells, storerooms, motorbikes, radios)
 - Procurement and distribution of supplies and equipment
 - Ensuring that site-level stakeholders, including Wildlife Service rangers, Community Wildlife Ambassadors (CWAs) and local communities, are kept informed of activities and given opportunities to feed into processes and decision making

- Ensure that all activities are delivered in line with agreed timelines and budgets, according to each donor's contractual and administrative requirements, and in compliance with donor and FFI operating standards, policies and procedures, and funding agreements
- Ensure all approaches used are those that are standardised across the South Sudan and wider Africa programme, and in collaboration with FFI staff and partners in the landscape
- Develop, implement and manage processes for the effective monitoring and evaluation of FFI's work in the target sites, ensuring timely adaptation of activities, as required and following FFI and donor processes for change, to meet project aims, objectives and timelines, and support the dissemination of lessons learnt
- Ensure that all activities are fully evidenced through excellent record keeping and data storage, in compliance with both FFI and donor requirements, to enable regular monitoring and progression of impacts
- Ensure that field operations are conducted to a high standard of health, safety, welfare, environmental good practice and cultural sensitivity, in line with FFI global policies and procedures and any national policies and procedures

Development

- Contribute to strategic planning and development of FFI's work in the Western Equatoria landscape
- Develop and contribute to funding proposals that meet project outcomes and objectives, ensuring the accuracy and relevancy of work planned, input from relevant staff and partners and that the proposed work is fully aligned with FFI's strategy
- Ensure proposal budgets are appropriate for project implementation, address priorities and gaps, consider match funding requirements, and meet staff and field operational costs and institutional overhead requirements

Financial Management and Reporting

- Ensure FFI internal reporting requirements and all grant reporting requirements are met in an accurate and timely manner
- Input into the annual budgeting and periodic reforecasting processes for the South Sudan programme

Grant Management

- As required, undertake specific fund management responsibilities where appropriate, including:
 - Lead FFI and donor technical report writing and editing, coordinating the inputs of team members, cross-cutting teams, specialists and partners, ensuring accurate and timely technical reports as per FFI and donor requirements
 - Ensure all landscape-level funding proposals and resulting contracts and grant agreements are appropriate to, and comply with, FFI operating standards, the FFI Delegation of Authority (DoA), and implementation context within the region
 - Delivery of grant funded projects within time-frames and budgets
 - Manage project inputs from relevant technical and operational staff and consultants, and implementing partners, ensuring appropriate contracts are in place where relevant
 - Be responsible for fund finances and ensure all expenditure complies with donor and FFI regulations, and the DoA.

- Prepare project financial reports, with support from the FBP, Africa and ensure timely, high quality and accurate technical, operational and financial funder and institutional reporting
- Ensure the regular back-up and appropriate storage of all data on implemented FFI systems such as a monitoring system, as well as “cloud” based online storage

HR / Staff Management

- As required, provide strong and motivational management to line reports to support efficient, effective delivery of FFI’s conservation programme in South Sudan through objective setting, continuous performance management, annual appraisal, training provision and personal development planning
- Support project team members to ensure work plans are in place to meet project aims, objectives and timelines and ensure that projects are implemented in line with work plans and within budget

Partner relationship / representation

- Establish and actively maintain a positive and productive working relationship with key project stakeholders in government, communities, NGOs and the private sector, including through capacity building and mentoring where required
- As required, represent FFI and its work in South Sudan, developing its profile and promoting its work to third parties, including diplomatic and government agencies, communities, NGOs, for-profit entities, academic institutions, funders, and media
- Represent FFI at various partner and stakeholder coordination platforms for successful implementation of landscape activities

Other

- With the agreement of the LM-WE, perform any other tasks that may be requested from time to time that are appropriate to skills and experience
- Provide FFI Communications and Fundraising Departments with text and images as required for the production of up to date communications and fundraising material (e.g. web pages, articles, reports) to ensure visibility of FFI’s work in the landscape
- Support a culture of excellent communication, sharing of knowledge, lessons learnt and best practices and collaboration between project staff, wider FFI team members, implementing partners and other stakeholders as appropriate
- Work as an active member of the South Sudan and wider Africa team and attend South Sudan and Africa team meetings and work planning sessions as required
- Provide technical input, where appropriate and requested, on other work undertaken by the wider FFI Africa programme

FFI Values

Values underpin who we are and how we act. Just as values shape who we are as individuals, they define us as an organisation, creating the culture of success for which FFI is renowned. Our people exemplify our shared values, which are interconnected and interdependent:

- We act with integrity
- We are collaborative
- We are committed
- We are supportive & respectful
- We get things done

How to Apply

Applications, consisting of a covering letter explaining why you feel you should be considered for this post, a full CV (tailored to the role as advertised, highlighting relevant experience and achievements) and contact details for two referees (who will not be contacted without your permission) should be sent to africajobs@fauna-flora.org

Please mark your application **Project Manager, South Sudan**.

The closing date for applications is **Sunday 10 April 2022**. Interviews are likely to be held during the week commencing **18 April 2022**. Candidates selected for interview will be contacted by email or telephone – please specify your preferred method of contact in your covering letter and indicate where you saw the position advertised.

Regrettably, due to limited resources and the high number of applications we receive, we are only able to contact short-listed candidates. If you do not hear from us within four weeks of the closing date, please assume that you have not been successful on this occasion.

Applicants with Disabilities

FFI encourages applications from individuals with a disability who are able to carry out the duties of the post. If you have special needs in relation to your application, please contact Jade Bedwell, HR Adviser, FFI, on Tel: +44 (0)1223 749044 or Email: jade.bedwell@fauna-flora.org.

FFI values diversity and is committed to equality of opportunity
