

Good Things In Life (by Adam Brand- Album "Good Friends")  
(pour danse : "Why Lie)

We were barely seventeen  
Two kids with the grown up dream  
Of a perfect love  
Foolin' round in my first car  
Careful not to go too far  
That's how it was  
    We had a simple wedding  
    You looked beautiful in white  
    And I recall your mother's blessing  
    On our wedding night  
    "I wish you every happiness  
    And may you always have the best  
    Of the good things in life"

We moved into a commission house  
It wasn't much and it wasn't ours  
But we had plans  
I worked nights and you worked days  
Twelve months seemed to slip away  
Like an avalanche  
    I came home one morning  
    Found your note pinned to the door  
    Saying if this is a perfect love  
    I don't want it any more

But "I wish you every happiness  
And may you always have the best  
Of the good things in life"

(instrumental part)

I was back in town just passing through  
Catching up with friends we knew  
For old times sake  
In a crowded lunch time bar  
I turn around and there you are  
Face to face  
    And for the sweetest moment  
    A smile came to your eyes  
    So I whispered as you walked away  
    With the new man at your side  
    "I wish you every happiness  
    And may you always have the best  
    Of the good things in life"
